Service Hours Record Sheet

All CCA secondary students participate in a service learning opportunity of their own choosing. Middle school students will do 10 hours and high school students do 15 per year. This counts as a test grade in Bible class. Those who would like to make service a **larger** part of their secondary experience or those who would like to **participate in an internship**, can choose the independent study course entitled "Service Learning" (see below).

Student's name _____

Parent Signature _____ Date _____

Date	Describe your service	Location	Supervisor Signature

Those who choose to take volunteerism to the next level can apply for CCA's Service Learning course through Mrs. Tiday. Service Learning students make a connection with their community in a unique way. They have up to 2 years to do 50 hours of service, complete 4 reflections and present their work to a panel of school leaders. Students who fulfill the project requirements will earn a semester elective credit (1/2 credit). For high school students, this counts toward graduation and looks great on college applications.
